

# ***Titan Energetics Division Announces***

## ***“Clip Saver” Gun Loading Sleeves***

For 2-3/4”, 3-1/8”, 3-3/8”, 4”, 4-1/2” and 5” Titan Gun Assemblies

Titan now offers a gun loading tool to help prevent the accidental dislodging of charge retainer clips while inserting a loaded charge tube into the carrier. To use, insert the sleeve into the end bore of the carrier until it is flush with the end of the gun bore, align the slot in the sleeve to the slot in the carrier, insert the loaded charge tube and then remove the sleeve. The part numbers for these tools are:

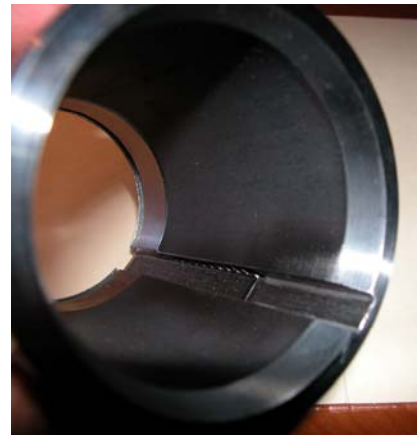

<u>For Gun System</u>	<u>Sleeve Part Number</u>
2-3/4”	0362-100-195
3-1/8”	0363-100-195
3-3/8”	0365-100-195
4”	0400-100-195
4-1/2”	0445-100-195
5”	0336-100-195

Typical gun end bore.

Loading Sleeve.

Loading Sleeve installed.
